

Dental Referral List by County

Significant Medicaid Providers

Medicaid recipients may receive dental treatment from any dentist who is enrolled in the NC Medicaid Program and is willing to provide dental care to Medicaid recipients. This list includes only those dental practices and clinics that filed claims for at least ten new Medicaid recipients during the last quarter. Although the providers listed here may be more likely to accept new Medicaid recipients, you should confirm this by contacting the provider of your choice in your area. These dental practices and clinics are sorted by county with those located outside of North Carolina at the bottom of the list.
