Find us on Facebook

At Monarch, we believe that each person is a unique individual with a personal dream. We understand that life poses challenges for some more than others. Often, these challenges can prevent people from realizing their full potential. Monarch is here to help individuals and their families take control of their lives and reach their dreams.

Monarch is a nonprofit organization. We support people with varying degrees of mental illness, substance abuse challenges, and intellectual and developmental disabilities. Monarch provides safe and nurturing environments and relationships to help people learn, grow, heal, and break through barriers.

Monarch is for everyone. We provide support and services for people and their families regardless of age, race, religion, or cultural beliefs. We understand that different phases of life pose different sets of challenges. Our staff has expertise working with a variety of people and circumstances.

Often people tell us that we have succeeded where others have failed. That's because at Monarch, our dream is to see the people we support achieve their dreams. We are here to help make it happen, whatever it takes.

Established in 1958, Monarch provides support statewide to thousands of people with intellectual and developmental disabilities, mental illness and substance abuse challenges. Monarch is a nonprofit organization that is nationally accredited by CQL and CABHA certified.

An affiliated chapter of The Arc For people with intellectual and developmental disabilities

Open Access

Open Access means we encourage individuals who need services and are new to Monarch to simply walk-in for the first appointment. When an individual walks in we will complete a comprehensive clinical assessment, a treatment plan, a psychiatric evaluation with prescriptions if needed, and a referral to the proper level of care. While this process takes longer than a traditional appointment, it reduces what could otherwise be months of waiting for help to same day access. Hours for this program are 8 a.m. - 3 p.m.

The Community Alternatives Program for Children (CAP/C)

The Community Alternatives Program for Children (CAP/C) provides cost-effective management of home care for medically fragile children (through age 20) who would otherwise require long-term hospital care or admission to a nursing care facility. The program contributes to the quality of life for the children and their families/caregivers. Monarch provides only the case management for this service. The case managers are responsible for assessing the children's needs, identifying and connecting them with home care services and monitoring the services.

Intensive In-Home Services (Ages 3-20)

When a family feels they have come to a point of crisis with a child experiencing mental health problems, Monarch will create an environment for success. We help manage a child's behavior and assist and empower families in developing problem-solving skills and accessing community resources.

Outpatient Therapy and Psychiatric Services (Children and adults)

Monarch clinicians provide comprehensive clinical assessments, counseling/therapy, psychiatric assessments, and medication management for individuals dealing with mental health challenges such as bipolar disorder, schizophrenia, depression and anxiety. There is also help for individuals challenged by substance use disorders. Our experienced doctors, physician extenders, nurses, and therapists coordinate treatment with primary care physicians to provide a comprehensive approach to treatment. Through Open Access, individuals in crisis can be seen for their first service without the need of an appointment so treatment can start right away.

Assertive Community Treatment Team (ACTT) (Adults only)

The Monarch Assertive Community Treatment Team (ACTT) provides a comprehensive, personalized treatment program for people who have been diagnosed with a severe and persistent mental illness. ACTT staff work with people in their home, at school, or at work, and are available 24/7. ACTT employs a team approach to help individuals with everyday basics such as preparing in the morning, taking medications, and making it through the day. The team includes a psychiatrist, nurses, vocational specialists, therapists, other mental health professionals and peer support staff to help people remain out of the hospital and living in the community.

Residential Services (Adults only)

Monarch provides a comprehensive array of residential living options. Whether an individual needs live-in assistance, daily or weekly support, Monarch has options to fit almost every need. We currently offer scattered-site condos, apartment homes, group homes and a transitional housing program for individuals who need increased support along with a treatment program.
